It was a pleasure to deal with this company. Their expertise and professionalism were immediately apparent as they candidly responded to all of my inquiries and gave a quote for our solar system that was free of hidden fees or unanticipated adjustments. Every employee who worked on my system, including the project managers, designers, and installers, received the same high level of service. Also excellent communication throughout. Strongly advised Pima Solar

Moving down from Wisconsin we decided to get solar added to the house we moved into and after shopping around and dealing with scam solar companies, we finally came across Pima Solar which was amazing from the first phone call! Adam came out and was very informative about the solar and when he left he was not pushy and gave us time to think if we wanted to continue and given after the scam companies we dealt with we did give it some thought. When we decided to go with Pima Solar the process was quick and easy and everything afterwards just all happened very quickly with minimal efforts from us. Jen our amazing project manager scheduled all the needed inspections and best part was we didn't have to be around for anything and they gave you this feel of trust which made the experience that much more better! All in all the experience with Pima Solar was quick simple painless and within 1-2 months of signing the contract I am no running on Solar!! Thank you Pima Solar we would definitely recommend them for anyone future Solar needs!

I am completely satisfied with using Pima Solar. I was wanting to use a local company that is why I chose to call them, they rep had plenty of knowledge which led me to chose to sign contract with them. There were a few hiccups which is to be expected when dealing with building permits and different organizations (city, power company, financing); however, they worked diligently to insure prompt resolve on any issue that occurred. I am excited to start seeing the impact on my energy consumption.

Knowledgeable, courteous, good communication, timely. I was nervous about getting solar because of horror stories I had heard about other companies. Pima Solar answered every question I had, got things done quickly, and I am very satisfied with the experience.

The three main things we looked for in our solar search were 1) local, 2) knowledgeable, and 3) a long history in the area. Pima is based out of Tucson and is part of a larger electrical company with a long history of doing quality work for major companies in Tucson. After interviewing four companies, they came out ahead with the fact that we could get immediate responses from everyone, actually had people stop by to check on the installation, and were ready to handle any situation that came up. They also had the fastest turn-around time and were able to start the installation within a few weeks of the proposal (others were months out due to supply issues). What made me realize we made the right decision was when they took extra care and time to responded when we had roof issues unrelated to the solar, but they wanted to make sure the solar would not be impacted with the repair work being done and ensure the solar work was not in any way a contributing factor in the roof issues. A++. Will use again. Definitely recommend!

Excellent customer service and product. Several Thousand dollars cheaper than other companies, with better rated equipment. Jen, our project lead, was extremely communicative. Installation was super smooth as well. Love our panels.

Their prices are way below those that canvas the neighborhood. Planning and install went smoothly. Issues were addressed promptly and professionally. Would get again.

Initially, I was a little skeptical about getting solar panels in general. I did some research, obtained different quotes from different companies, and in the end, I decided to go through with the project. I now know that not only did I make the right decision on a product, but the best company to do it for me. I want to thank Jake and his team at Pima Solar for providing me with the customer service and product that has been great for my home and my family!
